# MITHUN BISWAS

## Junior Full-Stack Developer | Frontend Specialist

I'm a dedicated web developer with a strong focus on the fundamentals of the web. I enjoy building clean, responsive, and user-friendly applications while keeping my code organized and maintainable. I'm passionate about continuous learning and excited to contribute my solid skills in HTML, CSS, and JavaScript to a growing and forward-thinking development team.

## PROJECTS

### eCommerce Website

*Solo Developer | HTML, CSS, Vanilla JS*

- Built a fully responsive product catalog with grid layouts.
- Implemented a shopping cart using JavaScript state management.
- Designed dynamic checkout forms with validation.

### Interactive Quiz App

*Solo Developer | JavaScript (ES6+), DOM*

- Developed complex logic to track user scores and render real-time results.
- Utilized JavaScript arrays/objects to manage question data dynamically.

### Drag & Drop Interface

*Solo Developer | HTML5 API*

- Mastered the HTML5 Drag and Drop API for interactive UX.
- Ensured smooth animations and cross-browser compatibility.

### Personal Portfolio

*Frontend Design*

- Designed and deployed a responsive portfolio to showcase projects.
- Implemented custom CSS animations and a dynamic contact form.
